

DEADLINES

Submission of abstracts in Polish or English:	14.04.2017
Information about the acceptance of abstracts:	15.05.2017
Submission of papers in Polish or English and fee deadline for authors:	30.06.2017
Information about the acceptance of articles and results of the review:	31.07.2017
Submission of the corrected articles:	18.08.2017
Registration – application form and fee deadline for participants:	30.09.2017

It is possible that the scientific articles selected by the Scientific Committee after review process will be published in English (Web of Science - 15 pts). All articles after reviews will be published in the conference proceedings in Polish. The conference also includes a poster session.

CONFERENCE ORGANIZERS

EKKOM Sp. z o.o. and road industry information portal EDROGA.PL

scientific co-organizers:

Department of Roads and Bridges, Department of Building and Infrastructure
Lublin University of Technology,
Chair of Highway and Traffic Engineering, Faculty of Civil Engineering
Cracow University of Technology.

SCIENTIFIC COMMITTEE

The participants of the Scientific Committee will be presented in the
Announcement No. 2.

ORGANIZING COMMITTEE

Maciej Hałucha – Chair of the Organizing Committee – EKKOM Sp. z o.o.
Sebastian Biernacki – EKKOM Sp. z o.o.
Joanna Bohatkiewicz – EKKOM Sp. z o.o.
Marcin Dębiński – Lublin University of Technology
Michał Jukowski – Lublin University of Technology
Małgorzata Pogorzelska – Lublin University of Technology
Malwina Splawińska – Cracow University of Technology
Krystian Woźniak – Cracow University of Technology
Łukasz Woźniak – Road industry information portal EDROGA.PL

All necessary information regarding the conference and the application form can be
found on the website:
www.ek-kom.pl

III INTERNATIONAL CONFERENCE OF ENVIRONMENTAL PROTECTION IN CIVIL ENGINEERING

The conference is held under the auspices
of the Section of Civil Engineering,
Committee on Civil Engineering and Hydroengineering
of the Polish Academy of Sciences

Zakopane, 6 – 8 December 2017

OBJECTIVES OF THE CONFERENCE

TRANSEIA conference is a continuation of TRANSNOISE conferences that took place in 2012 and 2013. Due to the fact that many problems have arisen in recent years during the preparation, implementation and maintenance of the transportation infrastructure, the scope of the TRANSNOISE conference has been extended and its name has been changed. Impacts coming from roads and road traffic are closely interrelated and occur often in the form of cumulative impacts. Consequently, the objectives and scope of the TRANSEIA conference cover the most important issues and aspects that arise during the analysis and implementation of environmental impact assessments. The interdisciplinarity of these issues makes it necessary to promote experience exchange between scientists and specialists. The basic aims of the conference are:

- 1. Experience exchange between science and practice regarding changes in legislation and approach to the implementation of environmental studies in civil engineering and the use of eco-infrastructure facilities.**
- 2. Link between science and practice in environmental studies and the use of eco-infrastructure facilities in civil engineering.**
- 3. Needs of research and innovation in design and preparation of environmental studies and the use of eco-infrastructure facilities in civil engineering.**

TERMS OF PARTICIPATION

Participation in the conference is possible only after sending the completed CONFERENCE APPLICATION FORM (by post, fax or e-mail) and making a payment on time:

Deadline:	Fee for one person:
till 30.06.2017 *	950 PLN + VAT **
till 30.09.2017	1150 PLN + VAT **

**) The obligatory deadline of payment for the authors (the price includes one article, price for each extra article is 400 PLN + VAT)*

****) for participants who pay at least 70% from public funds, the conference fee is exempted from VAT provided that a participant submit together with the application form a declaration signed by persons authorized to incur liabilities to an institution. In the absence of such a statement, VAT should be added to the price.*

Payment details: bank account IBAN: PL 27 1240 4588 1111 0000 5490 1061, Bank PEKAO SA Kraków Branch, SWIFT/BIC: PKOPPLPW. Please specify the name(s) of the

conference participant(s). The price for the participants includes meals; from lunch on the first day of the conference to lunch on the third day of the conference, dinners and conference materials.

SCOPE OF THE CONFERENCE

- 1. Environmental studies and eco-infrastructure in legal regulations**
 - Current legal status and necessary changes
 - Optimization of eco-infrastructure
 - Procedures for the use of eco-infrastructure
 - Guidelines and catalogs for environmental studies and eco-infrastructure
- 2. Research and innovative eco-infrastructure solutions**
 - Data in environmental studies
 - Environmental databases
 - Research and forecasts of environmental impacts and condition of the environment
- 3. BIM design technology and forecasting of adverse impacts in civil engineering**
 - BIM design technology and its use in environmental studies
 - Methods of forecasting the adverse impacts in civil engineering
 - Life cycle analysis of transportation facilities
 - Preparing variants in environmental studies
- 4. Adverse impacts of transportation infrastructure on the environment and human health - methods and means of minimization**
 - Current issues of the usage of noise protection solutions
 - Air pollution and its impact on climate and human health
 - Impact of transportation infrastructure on water environment - methods and means to reduce pollution
 - Current issues of environmental protection in civil engineering - the need for research and necessary changes in approach

Organizers reserve the right to make changes to the conference program.
